

CANWALK TPO WALKWAY PAD

Description:

Canwalk TPO Walkway Pad is a thermoplastic TPO membrane, fit to protect the TPO waterproofing membrane from possible physical damage in high traffic areas.

Canwalk TPO Walkway Pad is manufactured with a diamond plate tread pattern on one side to prevent slippage. Canwalk TPO Walkway is supplied in rolls measuring 86 cm (34") wide x 15.2 m (50') long.

Canwalk TPO Walkway rolls are available in white, grey and yellow colors.

Features

- anti-slipped embossed surface
- Excellent welding capacity to TPO membranes
- Resistant to puncturing

Material properties:

Properties	Test method	Typical Value
Nominal thickness	-	157 mil (4.0mm)
Tear Resistance	ASTM D624	> 40 kN/m
Elongation	ASTM D412	> 200 %
